Audience share in percentage: share that represents the viewing time for a channel over the total viewing time for television media.

The **Weekly Médiamat** is part of Médiamétrie's MediaMat offering.

Médiamat. the benchmark in television audience measurement in France. provides daily **audience figures for programmes watched anywhere, on any screen, live, timeshifted, on replay or preview,** by all French people aged 4 and over, i.e. **63.6 million** individuals.

The measurement is based on **2 representative panels** :

- A first panel of around **12.000 individuals** in **5.500 households**. comprising :
  - 5.000 households equipped with home TV sets. each connected to a fixed audimeter. the source of home TV audience measurement
  - 500 households without home TV sets
- A second panel of around **5.000 individuals** carrying a **personal portable meter** to measure TV audiences out of home (all screens) and on Internet screens at home. These audiences are then attributed to the individuals in the first panel by statistical fusion.
