PRESS RELEASE

Monthly Médiamat

April 2022 – from 4th April to 1st May 2022

TV audience measurement

Features of Médiamat

Médiamat, the benchmark in television audience measurement in France, takes into consideration audiences of programmes watched at home on TV and audiences outside of the home and on the move regardless of the screen: television, computer, smartphone, tablet.

On 25th April 2022, the Médiamat panel comprised 11,455 individuals aged 4 years and older living in 5,002 households equipped with an audience meter in each television set at home. This panel is representative of individuals residing in mainland France having a TV set in their main residence. Audiences outside the home and on the move are measured thanks to a panel of individuals who carry with them a miniature audience meter as they go about their daily activities. Today, there are about 4,500 panellists aged 15 years and older and equipped with a television set.

Calculation features and audience indicators

Viewing Time per Individual (VTI) in minutes: average time spent viewing programmes broadcasted by TV channels by all individuals in the population studied.

Audience share in percentage: share that represents the viewing time for a channel over the total viewing time for television media. For Canal +, the results have been calculated across the entire broadcast period, whether the broadcast was scrambled or unscrambled.

Monthly coverage: number of individuals who had at least one contact of 10 consecutive seconds with the channel over the month.

Audience in Viewing days: total audiences of programmes viewed live, time-shifted and on catch-up on a given day, regardless of the original live broadcast date of the programmes caught up with.

Audience share in percentage: share that represents the viewing time for a channel over the total viewing time for television media.

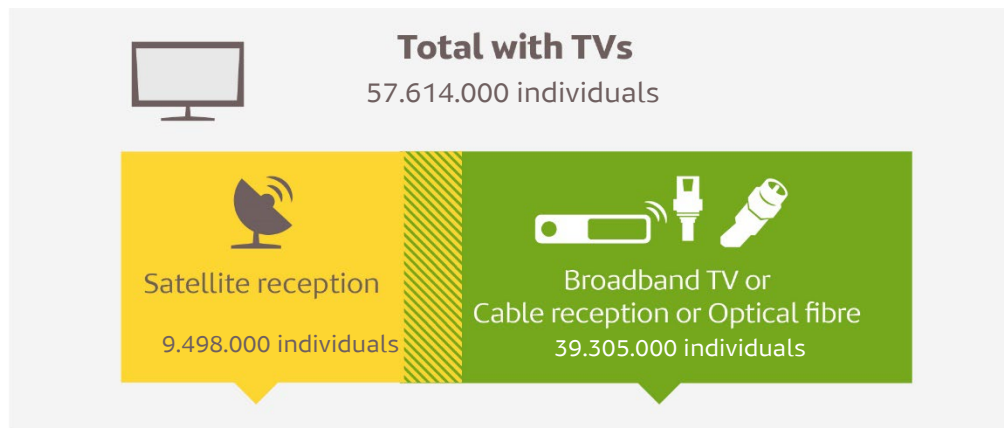

PRESS RELEASE

Monthly Mediamat

April 2022 – from 4th April to 1st May 2022

Equipment, subscription and reception

Source: Médiamétrie

Total with TVs: All individuals 4 years + having at least one TV set at home, regardless of how they receive their TV: via digital terrestrial TV (DTT), analogue and digital cable, satellite, ADSL TV, optical fibre.

Satellite reception: All individuals 4 years + living in a home with at least one TV set connected to a satellite TV service, with or without a subscription.

Broadband TV / Optical fibre / Cable reception: All individuals 4 years + living in a home with at least one TV set connected to a broadband TV service or optical fibre or set hooked up to a cable TV service.

About Médiamétrie, a trusted third party for fair and objective measurements

Médiamétrie is committed to providing its customers with joint and sovereign standard audience measurements. As a data leader and media expert, the company applies its know-how to video, audio and cross-media behaviour measurements, as well as advertising effectiveness measurement. Every day, some 1,000 employees design and produce the right measure for today and tomorrow to support the free decision-making of the company's customers in France and abroad. In 2021, the Médiamétrie Group achieved a turnover of €105,1 million and processed over one billion data every day.
