Definitions

Audience in Viewing days: total audiences of programmes viewed live, private time-shifted, preview and on replay on a given day, regardless of the original live broadcast date of the programmes caught up with.

Weekly coverage: number of individuals who had at least one contact with the television medium during the week, regardless of the duration of this contact.

Audience share in percentage: share that represents the viewing time for a channel over the total viewing time for television media.

The **Weekly Médiamat** is part of Médiamétrie's **MediaMat** offering.

Médiamat, the benchmark in television audience measurement in France, provides daily **audience figures for programmes watched anywhere, on any screen, live, timeshifted, on replay or preview**, by all French people aged 4 and over, i.e. **63.1 million** individuals.

The measurement is based on **2 representative panels** :

- A first panel of around **12.000 individuals** in **5.500 households**, comprising :
 - 5.000 households equipped with home TV sets, each connected to a fixed audimeter, the source of home TV audience measurement
 - 500 households without home TV sets
- A second panel of around **5.000 individuals** carrying a **personal portable meter** to measure TV audiences out of home (all screens) and on Internet screens at home. These audiences are then attributed to the individuals in the first panel by statistical fusion.
